Not waiting for the next meeting, please always call our Firm and present your matters (needs/offers) proactively, since the planning, development and its implementation always requires time, the markets now undergo deep volatility and will not be waiting for anybody and later handling will always be more difficult and more expensive, which can be avoided.

Cost of attending the meetings is the minimum cost to have the meeting.

The space is usually limited to 30 people because of the meeting hall size. The admission to the meeting is based on "First come – First served" to the fullest allowed capacity of the hall. All who come and do not fit into the hall are asked to call our Firm directly and to provide their contact information, so they also could be helped.

Sincerely,

Andrew Morawski, President / Compex Business Expansion & Services, Inc. / (630) 707-2050
